TASTING NOTES

black caps, blistered tomato, gravel

A perfect celebration of the natural world and elevation of the simplest of ingredients into three-star Michelin gold. The allure of Cabernet Franc lies in its inherent duality between wildness and refinement. It's a retreat for those who prefer to be immersed in nature, but also appreciate the

comfort and sophistication of silk sheets on their bed each night.

Willow Cabernet Franc is an "outside the box" thinker, a chef that forages for their ingredients and gets creative in the kitchen. It aims to balance the natural with the learned, knowing how much of the landscape to seep through its tendrils while also providing a canvas for its own artistic freedom.
